Why to Visit Nepalese Manpower ?

Reasons are many Nepalese people are no tricksters. They, in basic terms, believe in assiduousness, hard work with utmost sincerity and honesty. Nepalese youths do not care whether it is a hot day or a cold one. They concentrate on work. If so, why not make the best use of this manpower, which will unquestionably serve the interest of both the employer and

The employee?

Reasons for the increasing demand of Nepalese workers:

Nepalese workers are hard working, punctual, loyal and have high sense of humour responsibility and discipline.

- Wide choice of manpower due to availability of skilled, semi-skilled and unskilled workers almost in all fields and vocations.
- Are readily available for immediate placement.
- Are experienced in working in the extreme all types of climatic conditions
- Are peace loving and have accountability towards work and their employers.
- Procedures and formalities are simple.

It should be mentioned that the recruitment of Nepalese workers goes right from the historic British Gurkhas. Who proved their bravery during the world wars – to those committed Nepalese youths working currently in a foreign land as labourers, especially in the Gulf countries have been the trend-setters of loyalty and enthusiasm towards their duties and responsibilities.

Precisely enough, right person at the right place, is what we have been lying emphasis since the establishment of our agency. Our motto is not just working as a manpower-recruiting agency but also to prove that we are doing our best

Selection Procedure:

Each potential candidate must face preliminary interview with our recruitment officers before the final selection. We use two interview techniques for the selection of short-listed candidates.

1. Video Call: This technique is for those who are too busy to come to Nepal for interviewing the candidates selected in preliminary section. We make every arrangement for the interview between employers and the employee through video call.
2. Final Interview: Many employers visit Nepal for final interview. We make all necessary preparations for interview. We call shortlisted candidates for the particular day. We have fully equipped AC rooms and other modern facilities - computers, telephones, Internet, and all that an interviewer might need.
3. On the behalf of the employer: Sometimes, manpower importing agencies give full authority to us for entire selection procedures. In such case, we carry out interviews on behalf of employers abroad and make all dispatching arrangements to the employment destination.

The basic method of selection for skilled professionals is through trade tests and other techniques. A committee which includes representatives from the employing organization and our team carries out skill tests of all skilled manpower in the concerned discipline. Only those persons recommended by the selection committee are selected for overseas employment.

If special manpower with specific experience is needed, we use our official network located in different districts to headhunt such individual.

The discipline level of each and every worker is tested so as to avoid possible risks from the workers abroad. We exam in the workers' morality, attitude, behaviour and personal history. Team of our experts including a psychiatrist carry out these tests. Candidates have to go through medical tests after final selection. Only medically fit candidates are eligible to sign an agreement or contract paper.
